WE MAKE A DIFFERENCE IN OUR CLIENT'S LIVES LONG AFTER A CASE IS OVER.

The team of 30 people working for Kansas City Accident Injury Attorneys is an intimate group of people who give every client extraordinary representation.

It isn't easy navigating the legal landscape that injury and accident victims find themselves mired in these days, but the staff at Kansas City Accident Injury Attorneys delivers dedication, expertise, and an unwavering pursuit of justice for anyone who crosses their threshold.

The team has redefined what it means to be the best law firm in town. They start with core values and principles that are evident in all that is done at KCAIA. It began more than a dozen years ago, in 2010, and includes attorneys licensed in both Missouri and Kansas.

The firm's success is no accident. With other experts such

as case assistants, paralegals, a litigation manager and assistants, medical record collectors, lien negotiators and case closers, to name a few, it is obvious KCAIA prioritizes its clients, many of whom become lifelong friends of the team.

"We bend over backwards and turn somersaults in an effort to make sure that the client gets more than they had anticipated," said James Roswold, attorney and KCAIA chief executive officer as well as its chief operating officer.

"From beginning to end, we not only work to get clients the fairest compensation for their losses, but we also ensure they restore their

health as close to pre-accident condition as possible. Every client. Every time. They are special to us; not just a number. We make a difference in our client's lives long after the case is over."

The team at Kansas City Accident Injury Attorneys works on

its clients' behalves. It handles all facets of the case so clients can focus on their recoveries. It handles all insurance company issues, including denials, to take some of the emotional stresses out of cases.

"It is our job to remain positive and aggressive and help the client through this," James said.
